

AMTA IMEI Lookup Service – Terms & Conditions (Personal Use)

Please read the terms and conditions below in relation to your use of the IMEI Lookup Service ('Agreement'). Use the buttons at the bottom of the page to confirm your acceptance of the terms of the Agreement.

1. IMEI Lookup Service

- 1.1 Each mobile devices has a unique 15-digit serial number known as an *International Mobile Equipment Identity* ('IMEI').
- 1.2 If an IMEI is blocked by Australian mobile carriers, the associated mobile device will not be able to send or receive calls, texts or data in Australia.
- 1.3 IMEIs are usually blocked in circumstances where the corresponding mobile device is reported lost or stolen.
- 1.4 AMTA, in collaboration with Australian mobile carriers and mobile service providers, administers a database which tracks the 'blocked' status of IMEIs in Australia by Australian mobile carriers ('IMEI Database').
- 1.5 The IMEI Lookup Service grants a limited licence to members of the public, on the terms and conditions of this Agreement, to perform a 'lookup' search in respect of the 'blocked' status of an IMEI in Australia as recorded in the IMEI Database.
- 1.6 You acknowledge that:
 - 1.6.1 the results obtained from the IMEI Lookup Service reflect the status of an IMEI as recorded in the IMEI Database at the time of the 'lookup'; and
 - 1.6.2 the IMEI Database is not an accurate record of the 'blocked' status of IMEIs as at the time an IMEI 'lookup' is made, as the IMEI Database relies upon data being input and confirmed by third parties – this means that there could be a substantial delay between an IMEI being reported lost or stolen and being recorded as 'blocked' in the IMEI Database.
